

# SparkTricity Ltd

Main contractor & specialist installer

Building safety, refurbishment, retrofit and electrical programmes — delivered and managed end to end.

## COMPANY PROFILE

London & the South East · Established 2006

### About us

SparkTricity Ltd is a London-based building compliance contractor. Since 2006 we have grown from an electrical contractor into a multi-discipline business delivering passive fire protection, retrofit, building services installation and electrical works for public-sector, social housing and commercial clients. We deliver and manage complete programmes, and also provide specialist packages to main contractors — all under third-party accreditation with the certification and documentation that framework contracts demand.

## How we work

- |                                    |  |
|------------------------------------|--|
| <b>01 Survey &amp; assess</b>      | Establish condition, scope and the standards your contract requires. |
| <b>02 Design &amp; specify</b>     | Compatible, certified systems specified to the right detail.         |
| <b>03 Install &amp; certify</b>    | Accredited operatives install and certify the works to standard.     |
| <b>04 Evidence &amp; hand over</b> | Records and certification compiled into a complete compliance pack.  |

### Discuss your project or compliance requirement

Tell us what you need and we'll respond with a clear, costed proposal.
